Topsheet apertured film - DRYTEX®

### Film topsheet poliforato – DRYTEX®

Il film poliforato DRYTEX®, è un prodotto realizzato su supporto appositamente studiato per garantire al film la massima morbidezza e allo stesso modo la massima macchinabilità. La forma conica del foro, ottenuta con una speciale tecnica di produzione, consente la massima penetrazione del liquido. Sono disponibili formulazioni e tipologie di fori differenti per garantire la soluzione più idonea alle esigenze del cliente.

#### Supporti disponibili:

- Bianco
- Colorato
